AFRICA GLOBAL

Contemporary Art from Africa and the African Diaspora

The 2023 title of Ten North Group's *Art of Transformation* exhibitions and programs is designed to explore issues in African and African Diaspora contemporary art. It brings artists of African descent from around the world to Miami in a series of exhibitions, panel discussions, performances, and film projections.

The Art of Transformation is a dynamic process of community building through creative place-making, -- the art of re-imagining communities through the use of the arts and culture.

Ten North Group's approach to the arts is to be catalytic by serving as a place maker in rebuilding communities, creating business opportunities within the creative economy, attracting new audiences, and bringing greater awareness of African Diaspora Art to the broader community.
